

# Tokina CCTV LENSES

**TM33Z1015AIPN • TM33Z1015AI**

**1/2" f=10-330mm F/1.5**

1/2" Angle of View W34.99-T1.13°

1/3" Angle of View W26.44-T0.85°

*Built with a superior optical lens, this lens is known for its clarity and sharpness. ( It can be used on highways and at airports as well. )*

By connecting to an advanced camera, you can obtain even better images and performance.

Optimum for license plate recognition and spotting suspicious people.

*The reliability and technical prowess of a top Japanese optical manufacturer makes this lens ideal for large-scale monitoring of any kind.*

At night, you can obtain clear, high resolution images with the day night camera.

*This bright, high-powered lens is created for public monitoring such as border patrol, railroad and coast surveillance.*

With a large F1.5 aperture lens, the brightness and high sensitivity make it the ideal camera for telephoto monitoring at night.
